Shanghai University of Finance and Economics — **Shanghai, China**

Bachelors of Business Administration (Major in Accounting) — 2006 – 2010

RESEARCH INTERESTS

Corporate disclosure, financial analysts, political economy of financial market

JOB MARKET PAPER

Investor Political Beliefs and Firm Voluntary Disclosures: Evidence from the Umbrella Movement

Abstract: The Umbrella Movement, a series of street protests, occurred in Hong Kong in 2014. Protesters aimed to put pressure on the Chinese central government to apply universal suffrage in electing the Hong Kong Chief Executive in 2017. Using a group of Chinese firms cross-listed on the Hong Kong stock exchange, I find that investors form divergent beliefs around the Umbrella Movement about firms that are politically connected to the Chinese central government. This finding suggests that the weight of investors' political beliefs in their investment decisions is subject to exogenous political events. I further document that government-connected firms increase their voluntary disclosures in general as a response to the divergent beliefs of investors. These results highlight the importance of investor beliefs in changing the information environment of firms.

WORKING PAPER

Auditors in Unhappy Cities: Do Spatial Differences Have an Impact on Audit Going Concern Opinions?

Abstract: I investigate whether the local happiness in the geographical area in which audit offices are located influences auditors' going concern opinions. I find that non-Big four audit offices located in the happier U.S. Metropolitan Statistical Areas (MSAs) are less likely to issue going concern opinions. I also find that the effects of local happiness on auditors' going concern opinions are stronger when the auditors and their clients are in the same city, or the driving distances between them are within 100 kilometers. Additional tests provide support to the argument that auditors in the happy MSAs have additional private information to mitigate their concerns when assessing the going concern status of their clients.

WORK IN PROGRESS

The Sword of Damocles: Evidence from Equity Analysts (with Xiang Zheng)

Firm Disclosures and Fake News (with Xiaoxi Wu)

Financial Analysts and Government Macroeconomic Policy (with Laurence van Lent, Yachang Zeng, and Ruishen Zhang)

European Accounting Review
AFAANZ Annual Conference

TEACHING EXPERIENCE & INTEREST

Tilburg University

Teaching Assistant:

Financial Accounting 2015 – 2016

- Teaching tutorials for bachelor students (group size 50)
- Teaching evaluation: 3.84/5 (2015), 4.19/5 (2016)

Financial Statement Analysis (no evaluation) 2017

Master Thesis Supervision 2015 – 2018

Supervisor of the Best Master Thesis 2017

Teaching Interest: financial accounting

PROFESSIONAL EMPLOYMENT

Anton & Chia, LLP **Newport Beach, USA**

Auditor 2012 – 2013

KPMG **Shanghai, China**

Auditor 2010 – 2011

Professional qualification: ACCA Chartered Certified Accountant (Inactive)

HONORS AND AWARDS

CentER Scholarship, Tilburg University	2013 – 2015
Merit Scholarship, College of William and Mary	2011 – 2012
Merit Scholarship, Shanghai University of Finance and Economics	2007 – 2009
